Work Experience

Flutter UK/I

Frontend Software Engineer | June 2023 - Present

- Building and testing complex new features on a large-scale, high stakes project
- Collaborating closely with other team members to ensure the highest possible quality of our deliverables
- Migrating code to new technological standards and enforcing modern programming best practices
- Helping with maintaining the team's codebase through code reviews and a proactive mindset
- Consulting with technical & non-technical collaborators to make sure that initiatives remain consistent and clear

Accesa

Frontend Software Engineer | Sept 2020 - June 2023

- Working closely with a large team of professionals, building features based on the client's requirements and holding demo presentations to showcase the team's work
- Actively participating in sprint planning and refinement sessions, continuously aiming to improve the team's performance
- Mentoring junior colleagues and interns, offering efficient ramp up & onboarding support to new joiners
- Conducting code reviews daily, making code quality and following best practices a priority within the team, reducing technical debt
- Developed internal tooling used throughout the organisation to boost productivity and offer better processes
